WELCOME MESSAGE

Following the 1st ENDT Days in 2007 and the highly successful 11th European Conference on NDT 2014 (ECNDT 2014) in Prague, **the Czech society for NDT** in cooperation with other NDT and CM Societies is preparing another important meeting of experts and users from the **NDT, including Condition Monitoring and Structural Health Monitoring areas for the year 2021.**

The 2nd European NDT & CM Days in Prague (October 2021) will consist of – **11th workshop NDT in Progress, International conference NDE & CM for Safety, 51st annual CNDT conference Defectoscopy 2021 and NDT & CM Expo.** During these days you can visit four different events at the Cubex centre Prague. It will be an exceptional opportunity to meet people interested in research & development, as well as in practice, standardization and the application of all NDT/NDE, CM and SHM methods with an emphasis on areas of modern Industry.

These „Days“ will be one of the most important NDT, CM, SHM and related branches **European events in 2021.** We hope that the 2nd European NDT&CM Days 2021 will not only be an opportune time for exchanging research findings but also an occasion for strengthening existing contacts and establishing new ones for all participants. Naturally, seminars, workshops, excursions and other social events will be organized.

This event represents a great opportunity for a select group of interested parties to be actively included in sponsoring and promoting the event and their business.

This will be the event of the decade; we hope to see you there!

CZECH SOCIETY FOR NDT

CNDT is a non-profit organization whose main objective is to promote the research, development, and practical use, including activities in the field of NDT/NDE materials and structures in all industrial and research areas. Through its diversified activity, the Czech Society for NDT seeks to assure quality and proficiency in the field of NDT/NDE.

The contemporary Czech Society for NDT continues a long-time tradition of the antecedent Czechoslovak NDT Society, established more than sixty years ago. CNDT is a regular member of the EFNDT, ICNDT, and ISCM.

VISITING PRAGUE

Prague is said to be the „heart of Europe“. Its uniquely preserved historical centre, a UNESCO World Heritage Site since 1992, reflects eleven centuries of history. This culturally rich city full of fabulous monuments charms visitors not only with its impressive and diverse architecture and breath-taking views, but also with its intimate, romantic atmosphere that is ideal for long walks. You will discover the glorious history of this former imperial and royal city, which today is the lively and modern capital of the Czech Republic, at almost every step on Prague's streets.

Prague's location in the heart of Europe makes the city easily accessible to travellers from almost every country. Sixty-nine airlines fly to 162 destinations in 54 countries from the Václav Havel Airport Prague, one of the busiest airports in Central Europe. Prague has three international railway stations and a bus station, all connected to the metro.
